filmi shakkar™, sugar in the form of sugar ships...

About Us

The Ugar Sugar Works Ltd is the flagship organization of the Shirgaokar Group of Companies, whose annual revenues are exceeding INR 600 crores. The company has been involved in the manufacture of white crystal sugar for over 65 years. Currently, at our Ugar, Jewargi and Bagalkot plants, we are crushing a total of 19,000 tcd of sugarcane daily.

Ugar Sugar has been successfully operating its 44 MW Bagasse based Cogeneration Power Plant- the single largest power plant of its type in the country for several years.

Ugar Sugar has embarked on a major expansion plan, which includes a unique one of its kind project of manufacturing sugar in the form of sugar ships. Ugar Sugar has set up a 100% Export Oriented Unit for the manufacture of sugar in the form of sugar ships at Ugar.

The plant and machinery for this EOU has been imported from Germany & has been installed. This hi-tech unit has been accredited with ISO 22000, which is a universally accepted food standard world wide. This product will be launched shortly in Middle East, India and rest of Asia Pacific under the brand name **filmi shakkar™**.

Our group has also diversified into the business of packaging through our new company – Ugar Quality Packaging, located at Ratnagiri, Maharashtra.

Process & Technology

Refined Sugar, Liquid Glucose & Water are weighed accurately in prescribed proportions & mixed thoroughly. The mixture is heated & pumped to evaporator where water is evaporated by further heating with steam. The concentrated mass is then suddenly cooled in beater to form the Fondant mass. The Fondant mass is then again heated to maintain fluidity & pumped to depositor.

The Fondant mass is deposited in the moulds (bottom part). The top cover (upper part) is placed on the mould & pressed to form the shape of ship. It is allowed to cool for prescribed time in the product cooler.

The moulds are then opened & Polystrol trays are placed on it. Then it is inverted & mould pusher pins are pressed to discharge the Sugar ships from mould to Polystrol trays.

Polystrol trays with Sugar ships are stored on SS trolleys in the Production hall with controlled humidity.

Sugar ships are flow packed individually & then packed in paper boxes for export.

The entire manufacturing process is ISO 22000 certified.

Product Range of the 'filmi shakkar™' Sugar Ships

Bulk Pack of 350 Ships

It's a bulk packing of 350 **filmi shakkar™** sugar ships packed in a unique hexagonal shaped master carton. This carton is supplied with innovative paper tongs for your convenience. It is also a travel friendly pack with its pop up handle.

Boat Box of 25 ships

This is a totally new concept of packaging. It comprises of 25 **filmi shakkar™** sugar ships packed in a boat shaped box, which can be used as a display pack too. These boxes are provided with innovative paper tongs for your convenience.

filmi shakkar™, sugar in the form of sugar ships...

Boat Box of 25 ships : Master Carton

Pouch of 10 ships

The pouch contains 10 **filmi shakkar™** sugar ships, which can be used as a display pack too. These pouches are provided with innovative paper tongs for your convenience.

Pouch of 25 ships : Master Carton

Master Carton: One rectangular shaped master carton contains 8 pouches of 25 **filmi shakkar™** sugar ships each.

Pouch of 10 ships : Master Carton

Master Carton: One rectangular shaped master carton contains 15 pouches of 10 **filmi shakkar™** sugar ships each.

Case

Bulk Pack of 350 Ships:

One case contains 4 hexagonal master cartons.

Boat Box of 25 ships : Master Carton

One case contains 4 boat shaped master cartons.

Boat Box of 10 ships : Master Carton

One case contains 10 hexagonal master cartons.

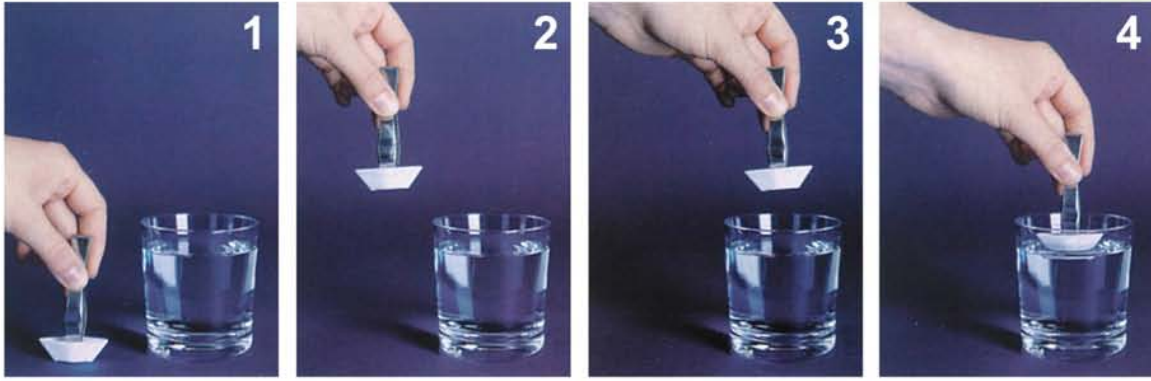

Pouch of 25 ships : Master Carton

One case contains 4 rectangular master cartons.

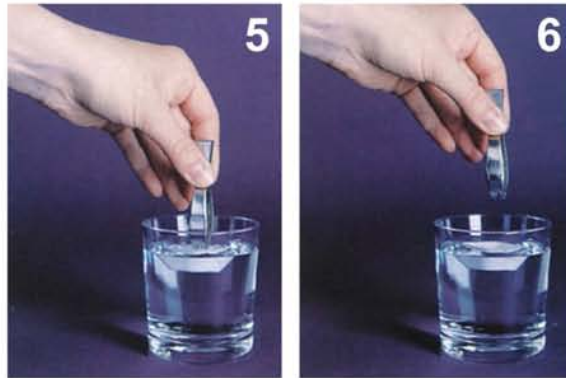

Pouch of 10 ships : Master Carton

One case contains 4 rectangular master cartons.

HOW TO USE :
filmi shakkar™
 contains only refined sugar and liquid glucose. No additives added. For better usage follow the steps as shown in the figures.

USE OF INNOVATIVE PAPER TONG :
 Take out the paper tong from the strip. Hold the mast of the ship with this tong. Gently place the ship on your beverage, you will see it floats. You can also use a table spoon for placing the sugar ship.
